All Partners will benefit from the following accreditations:

ISO 9001 - EPRO remanufactured toners demonstrate our ability to consistently provide products and services that meet customer demands, as well as regulatory requirements, while demonstrating continuous improvement during the remanufacturing process.
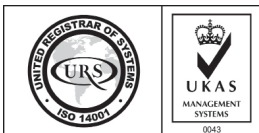

ISO 14001 - the international standard that specifies requirements for an effective environmental management system. All processes required to produce EPRO products will minimise any negative effects on the environment and comply with all associated environmental laws and regulations.

ECS employees are rewarded for their dedication and hardwork, particularly over the last year that has been difficult for most. A Real Living Wage helps employees financially while providing benefits for ECS Partners due to staff having higher job satisfaction and motivation.

EPRO products are all made within the UK and can be identified by the Made In Britain accreditation, recognising their identity and British heritage. UK made products are renowned for high quality and reliability.

EPRO remanufactured toners are produced in line with a number of standards and benchmarks which help us to improve and test each product while ensuring your expectations and demands are met:

ISO 19752 - B/W Toner - Measuring cartridge yields
ISO 19798 - Colour Toner - Measuring cartridge yields
ISO 29142 - Product standards for cartridges
ISO 8887 - MADE - Design for manufacture, assembly, disassembly and end-of-life processing

Using EPRO toners will help you to win more tenders. We work to ensure that you have all necessary licences, certificates, credentials etc. in order to submit winning tenders to the Government, authorities, MOD and the NHS. By doing so, you will achieve greater success and win more tenders - guaranteed.
